Question 2 Correct Marked out of 5.00 P Flag question

### Objective

In this challenge, we're getting started with conditional statements.

Given an integer,  $\emph{\textbf{n}}$ , perform the following conditional actions:

- · If n is odd, print Weird
- If n is even and in the inclusive range of 2 to 5, print Not Weird
  If n is even and in the inclusive range of 6 to 20, print Weird
  If n is even and greater than 20, print Not Weird

Complete the stub code provided in your editor to print whether or not  $\boldsymbol{n}$  is weird.

## Input Format

A single line containing a positive integer, n.

# Constraints

· 1≤n≤100

#### **Output Format**

Print Weird if the number is weird; otherwise, print Not Weird.

# Sample Input 0

Sample Output 0
